

# Sierra Sun

WALTER M. BARRETT

Again next Tuesday, the voters will be called upon to decide many important issues which will be on the general election ballots. It is the duty of every American citizen to study and familiarize himself with the 18 propositions and acquaint himself so far as possible with the qualifications of the various candidates. We nor anyone else can tell you how to vote, but you owe it to yourself and our government to go to the polls and vote your choice. Only in this way can we hope to continue under our American way of living and if we are going to forsake the ballot box we may as well forsake the many lesser items which go to make up our way of living.

With winter and its certain crop of snow only a matter of days in the future, we wonder if all the available scrap iron and steel, so urgently needed for production of war materials, has been collected and turned in. In the very near future snow will cover that which is left and for some months it may as well be in the hand of the enemy for all the good it will do our national cause.

There are still those who believe the 35 mile an hour speed limit is just a big joke or a trivial law to be obeyed by "suckers." Some are going to learn the hard way, we suppose, but it will not be because they were not warned. Drivers exceeding the 35 mile limit may be deprived of gasoline ration books or have the books revoked. There is bound to be some wailing about this, but the seriousness of the situation evidently has not impressed itself upon all. We may blame whom we please for our rubber shortage and the lack of preparation and dilly-dallying in synthetic production, but it can't alter the fact that a shortage exists and available supplies must be protected. Give the next speeder who passes you that old Victory blast, three shorts and a long on the horn. Watch him slow up.

Since long before Pearl Harbor, we made the offer that we would send each boy from Truckee in the armed forces a free copy of the Sierra Sun if they made known their desire and provided us with their address. We were only too happy to do this as a bit of evidence of our appreciation for what the boys are doing and we expected no thanks other than that self-satisfied feeling that we were providing the boys with something which we in the last war missed more than any single thing, aside from a trip home—the hometown paper. However, a word of appreciation now and then is certainly enjoyed and we were happy this week to receive a letter from a subscriber advising us that they had planned to discontinue the paper and buy war stamps with the price, but instead enclosed an extra sum with which we were asked to assist in defraying the cost of sending the paper to the boys. It is only through this spirit of cooperation by our subscribers and advertisers that we are able to continue our free service.

## LIONS TO LOAD CAR OF SCRAP IRON HERE

Efforts will be made within the next few days to have Truckee's second carload of scrap iron shipped to the manufacturing centers. C. Edmunds, chairman of the scrap drive for the Lions Club, reported to the club last night that a car could be secured within the next few days and urged that it be loaded and sent on its way. President Elden Tonini presided at the meeting and Eben K. Smart of Grass Valley was a visiting Lion.

## DRIVERS ESCAPE IN TRUCK, CAR MISHAP

A motor vehicle accident without injury occurred 18 miles east of here Saturday involving a large Lang tank truck driven by C. S. Westbrook, going east, and a U. S. Civil Aeronautics Administration car, driven by Ben Brown of 1500 Fourth St. Santa Monica. The machines met at a point where road work is being done. Patrolman H. B. Fowler was the investigating officer.

### At Vallejo—

Miss Zelda Petroni left Sunday for Vallejo where she is visiting relatives. Airways Chief Here—

William Howard of Los Angeles is a business visitor in this vicinity. He was recently promoted to a higher position in the C. A. A.

## Fewer Deer In Area Killed By Fewer Hunters

Hunters and Deer Down 25 Per Cent Compared With 1941

Tabulation of deer kill records for the Truckee District of the Tahoe National Forest for the hunting season recently closed show in approximate figures that the number of deer killed and numbers of hunters were both about 75 per cent of the 1941 record, according to H. I. Snider, district ranger.

While the first five days of the season featured a heavy concentration of hunters and during which time 60 per cent of the deer checked were killed, the local hunting efforts were much less than originally expected by many. More hunters than normal were expected from the coast region where the season was closed but in the final analysis that change in hunting did not materialize as great as some expected.

The average time spent by hunters this year was two days, while in the normal years the average hunting effort had been three days, Snider stated.

Only one fire during the hunting season on the Truckee district was caused by hunters and the hunters responded to ranger's call to help put this out in speedy fashion. Such cooperation and the absence of numerous fires confirms the original contention that hunters in this locality are not as great a factor in causing fires than is the average tourist or hiker in the forest, and their good record will be a factor in keeping the normal deer season open in 1943, as it was kept open this year, Snider believes.

SACRAMENTO, Oct. 29.—(UP)—The State Division of Fish and Game announced that 21,587 deer were killed in California during the 1942 season which closed October 15. Highest report was in Modoc county, where 1707 animals were killed.

## FIRE REGULATIONS STILL IN EFFECT

In view of the particularly hazardous fire weather, Fire Chief Marc Edmonds has ordered the entire fire organization of the Tahoe National Forest to be on the alert.

Edmonds states that fire regulations will be in force on the forest until formally lifted through publication in the newspapers.

## Tax Bills Being Mailed To Property Owners

County Tax Collector Elma Hecker and her deputies have been busy the past few days preparing for mailing 6289 tax bills to property owners in the county. The bills amounted to \$292,892.16 for the county and the public utility rolls prepared by the state board of equalization aggregate \$159,574.99 or a total of \$452,467.15 for the entire county.

## Roy Waters Reported In Line for X-ray Job

George Waters has received a letter from his son, Roy, a private in the medical corps of the army now in Texas, advising him that he is expecting to be sent to a technical school soon to study x-ray. Roy was a student of first aid while here and rapid advancement is expected.

## RECORD REVEALS MANY PRISONERS ARE HANDLED HERE

Interesting figures from the office of Sheriff C. J. Tobiasen reveal that since 1935 more than 200 prisoners have been arrested in Truckee by Deputy Tom Dolley and taken to the county jail where they made up part of the 1836 prisoners booked there during the past seven years. This number does not represent hundreds who have been apprehended here for minor violations or the suspects that were apprehended and held locally for other states and counties.

## S. P. Carpenter Expires At Tunnel Six Project

W. H. Laity was called to Tunnel Six near Norden last Friday night to take charge of the body of William DeWitt, 54, of Sacramento, who died there from natural causes. He was a carpenter for the Southern Pacific Company. Laity was attempting to contact relatives.

## MY PLACE IN THE SUN

By PVT. DOUG BARRETT

It's a small war department: Coming from St. Petersburg, Florida, to Chanute Field, Ill., there was a young selectee named Nick Stillwell from Georgia. One would-be joker approached him and said, "Is General Stillwell your father?" "No," said Nick, "the general is my uncle; my father is Major Stillwell." Sho nuf, the nephew of the hero of the Battle of Burma slept right along side of me at Chanute as a selectee anr buck private. Did someone say "pull" is what gets you there?

Bright and early one morning our first sergeant asked, "How many of you men have ever fired a .30 calibre rifle?" A flock of hands went up. "How many have ever fired a .45 automatic?" A few hands went down, a couple of more went up. "How many have ever fired a Thompson sub-machine gun?" Two or three hands remained aloft. "O. K. Now you guys can get up at 3:30 in the morning and fire the boiler." Some joker!

Last night a bunch of the boys were guests of the Girls' Service Organization of Webster Grove at a dance in the W. G. high school. And thereby hangs a tale. You'd be surprised at what a boost it was to the morale of the men there. They all had a grand time dancing, drinking cider and getting their fortunes told. It really gives them a lift to know that the women they are fighting for appreciate their efforts enough to entertain them in such royal fashion. Believe there would be fewer dissatisfied soldiers if there were more Girls' Service Organizations like the one in Webster Grove, Missouri.

Add it's a small war dept.: of all the camps in the country, they had to congregate Bob Bowers, Paul Losey and Doug Barrett all at J. B. I haven't looked them up yet but I'll find them if I have to take the day off for the job.

Hoping this finds my little chum, Renee Hart, on the recovered list. I'll sign off and write to Big Chum Roy Waters deep in the heart of you-know-where.

## GRASS VALLEY MAN NABBED ON DRUNK DRIVING CHARGES

Carl F. Weisbrod of Grass Valley was arrested early Tuesday morning for driving while intoxicated and for hit and run after he crossed the highway at the foot of Donner grade as he was going west. His car struck a trailer parked off the pavement. He was taken to the county jail at Nevada City by Deputy Sheriff Tom Dolley. Patrolman H. B. Fowler was the arresting officer.

Weisbrod was taken before Judge C. E. Smith where he was sentenced to serve 50 days in jail or pay a fine of \$50. He chose the former.

## McDonald Wins After Recount Of Yolo Vote

District Attorney Chester C. McDonald of Woodland, well known at Lake Tahoe where he has a summer home, will become superior judge of Yolo County beginning January 1 as the result of the recount of votes completed before Superior Judge Dai M. Lemmon of Sacramento last week.

Judge Lemmon announced the official recount gave 3,547 votes for McDonald as against 3,540 for Superior Judge John O'Donnell, the incumbent, who filed the suit contesting the official results.

### Expected to Visit—

Mrs. Cala Bick, formerly of Truckee, now living in Klamath Falls, is expected to arrive this week for a visit with relatives.

Mr. and Mrs. Frank Brummund of Paradise were Truckee visitors on Tuesday and Wednesday. They are former local residents.

## Skippers of U. S. Ships Lost in Solomons

Pictured in these three official U. S. navy photos are the captains of the three U. S. cruisers which were reported lost in the early stages of the Solomon islands battle. At left is Capt. Samuel N. Moore of the USS Quincy; Capt. William G. Greenman of the USS Astoria (center), and Capt. Frederick U. Klefko (right), skipper of the USS Vincennes. Captain Moore of the Quincy was lost.

## HALLOWE'EN PARTY SATURDAY WILL BE GIVEN FOR CHILDREN, PARENTS OF AREA

All boys and girls and their parents are invited to attend the annual Halloween party at Capitol Hall on Saturday evening at 7:30 o'clock.

The party is sponsored by the Truckee-Tahoe Rotary Club and the final plans were worked out at the meeting of that organization Monday over the session.

## ASSOCIATED STATION CHANGES HANDS; MYRON IMMER NOW COMPANY MANAGER

A business transfer effecting the Associated Service Station on Commercial Row was made today when Myron C. Immer, local distributor for the company took charge of the popular station as well as the plant. Oran Sanders who has successfully operated the station for several years plans to leave in the near future for Sacramento.

## BUS SCHEDULES IN TRUCKEE CHANGE UNDER NEW RULE

Bus schedules through Truckee are being changed to conform with the new 35 miles an hour speed limit, it has been announced by Mrs. Hazel Lewis, Truckee agent for the Burlington and Greyhound Lines.

New departure times are as follow: East bound: Burlington—8:43 a. m.; Greyhound—3:02 p. m., 10:12 p. m., 2:38 a. m. and 6:28 a. m. West bound: Burlington—2:12 p. m. Greyhound—3:08 a. m., 7:58 a. m., 12:28 p. m. and 8:33 p. m.

### Visit Inners—

Mr. and Mrs. William Hewstons and daughters of Placerville were visitors at the Myron Immer home last weekend.

### Attended Wedding—

Miss Elizabeth Gates who is attending school in San Francisco was a guest at the wedding of her former classmate, Miss Phyllis Jean Marts to W. J. Cheek in Hayward Sunday, October 25.

### In Reno—

A. Bianchi, Truckee watchmaker, visited friends in Reno Sunday. He plans to leave here right after the general election.

### On Hunting Trip—

Frank Titus, Jr., student in San Francisco and Edward Wallace also of the bay city, spent the weekend here and enjoyed a duck hunt in Nevada Sunday with Frank Titus, Sr. They got their limits.

### Return Home—

Mr. and Mrs. George Pace and son, George, Jr., have returned from San Francisco where Pace underwent medical treatment.

### Farad Baby Home—

Mrs. Norman Harris of Farad has returned home from Reno with her daughter, Joan, born at Reno. The child weighed more than six pounds. Harris, the father, is employed by the Sierra Pacific Power Company.

### Attends Oakland School—

Miss Verna Pearson left Truckee last week to attend the Fremont High School in Oakland.

### Moves Again—

Private Paul Losey is now stationed at Kansas City, Missouri.

## Warren Favored To Win Election In Governor Race

Voters More Interested In Winning War Than In Election

by JOHN W. DUNLAP  
(United Press Staff Correspondent)

SACRAMENTO, Oct. 29.—(UP)—The betting odds favor Attorney General Earl Warren to be the next governor of California, as the campaign nears the finish, but a good close horse race is in prospect as the issues warm up.

Followers of Governor Olson declare the labor vote will more than make up for the opening advantage Warren secured by filing on both tickets and getting twice as many votes as Olson at the primaries. Warren has the psychological advantage, however, in that many voters do not fully understand the California cross-filing system, and seeing that Warren got the biggest total in August, might jump on the bandwagon in November.

One of the closing charges against Warren came from Superintendent of Banks George Knox, an Olson appointee, who made out that Warren was a "ham andegger" pensionite—probably the last thing Warren ever considered himself.

To claim that Warren was planning to revive the twice-defeated ham and eggs plan—as stated by Knox—seems far fetched but it will be only one of the last minute charges. Neither faction is blameless, however, although the excitement over such episodes will be less this year because voters are more occupied with the job of winning the war.

Olson has been hammering steadily on what he terms the "negative, timid and obstructive" approach of Warren to the war and defense problem. He said Warren and his party platform "leave us all in the dark as to any war program; but they leave no doubt whatever about his political hypocrisy."

### The Propositions

The welfare of the state is as much concerned with the passage of proposition two on the ballot as any other. It would provide an annual legislature and budget for the state, something that has been needed for a long time.

No big private business or corporation would tolerate waiting two years to make up a budget or call the board of directors together. Yet the state government, one of the biggest businesses going, fumbles along with biennial legislatures. The state would save money by changing the outmoded system. There would be a short session each year, instead of a lengthy two-part meeting every other year, a system inaugurated 63 years ago.

## WARREN GAINING VOTES IN COUNTY, SUPPORTER SAYS

Andy Holmes of Grass Valley was in Truckee Monday in behalf of the non-partisan campaign to elect Earl Warren governor of California at the November 3 general election.

Holmes, who was accompanied by Mrs. Holmes, said that all over the county sentiment was strong for a change in the governorship and that if present indications were to be counted, Warren will be the winner, although he warned against too much confidence and urged everyone to vote.

## Laundry To Make Only One Trip Weekly To Tahoe Under Ruling

A. P. Fontana of Fontana's Laundry and Dry Cleaners announced this week that starting November 1, only one trip will be made weekly to Lake Tahoe for delivery. This trip will be made on Wednesday and all patrons are asked to cooperate by having bundles ready. The change was made necessary through instructions from the ODT.

ON THE NEWS FRONT

# 43 Million Americans to Pay 24-26 Billion Dollar Tax Bill

The nation's first wartime tax bill applying to 1942 incomes as proposed by the senate will add between 24 and 26 billion dollars to the treasury, besides reaching down into the pockets of 18,000,000 new tax payers.

One of the outstanding sections of the bill provides for a 5 per cent "victory tax." This tax will have to be paid by all those making \$12 or more per week, plus the regular income tax if one has to be paid.

Up until this tax bill, the federal rate has been 4 per cent. This has been raised to 6 per cent and will apply to 43 million Americans.

Other provisions of the bill cut personal exemptions from \$1,500 to \$1,200 for married couples, and from \$750 to \$500 for single persons. Credits for dependents have been reduced from \$500 to \$400.

The following figures give an idea as to how much taxes would have to be paid by an individual making \$1,700 a year:

A single person would have to pay \$186.52 in income taxes, plus \$53.80 in Victory taxes. This would total \$240.32. A post war credit provision in the Victory tax payment of \$13.45 would reduce this amount to \$226.87.

A married person with no dependents would have to pay \$53.52 in income taxes plus \$53.80 in Victory taxes which would amount to \$107.32. A post war credit of \$21.52 would be due him after the successful completion of the war.

For a married person with two dependents there would be no income tax, but there would be a Victory tax of \$53.80. The post war

credit on this tax amounts to \$23.67 which makes a total payment of \$30.13.

In addition to the above changes in the tax bill on 1942 incomes, surtaxes ranging from 6 per cent on the first \$2,000 of taxable income, to 77 per cent on income above \$5,000,000 have been increased to 13 and 82 per cent respectively.

Excise (hidden) taxes have been increased on liquor, beer, wines, cigarettes, cigars, lubricating oil, slot machines, photographic apparatus, train, bus and plane fares.

The new tax bill also includes a provision for a joint congressional study of compulsory savings.

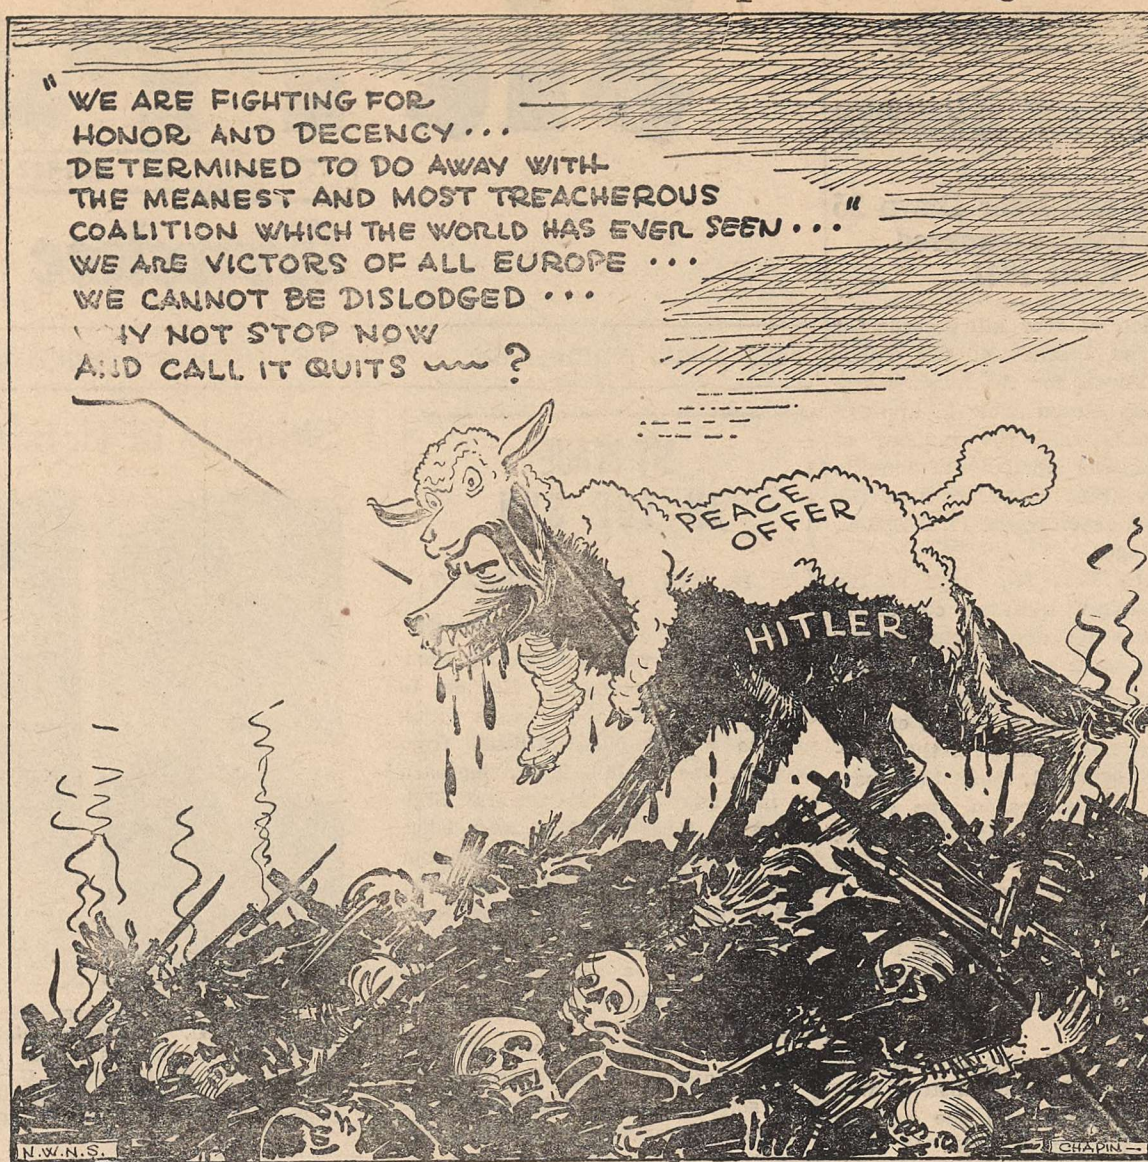

According to estimates by the treasury, the original house tax bill would have yielded over two billion dollars more from corporations than they now pay, while the senate version lowered this bill to not quite two billion dollars. The house, in its original bill, would have extracted \$2,872,300,000 more from individuals than they now pay, while the senate boosted this to \$5,081,000,000.

A spokesman for the treasury department, commenting on the tax bill, said that the purpose of the tax system as offered is to be severe enough to prevent too great a purchasing power from breaking price ceilings, yet sensitive enough to allow for individual needs and abilities.

He further stated such a tax program as this which combines adequacy with equity will be a major contribution toward a successful prosecution of the war, and satisfactory readjustment afterwards.

## Beware the Wolf in Sheep's Clothing

## EDITORIAL

### THE RIGHT TO VOTE

Surveys indicate that the vote at the coming election will be the lightest in years.

In a year when the future of our nation may be decided, it seems of the greatest importance to have everyone take advantage of the most important element of Democracy—the right to vote. The "don't care" attitude which so many of us take toward that sacred right is a dangerous thing.

If the new congress—the one which may decide the fate of our nation—is weak, and unable to cope with the problems of the day—those who don't vote can take the blame. We should be studying the qualifications of every candidate right now—and when election day comes it is vital that everyone of us go to the polls and vote for the very best men available.

### JAIL FOR BUNDISTS

Every time we hear of a member of a German-American Bund not being in jail, it worries us.

In joining a Bund, each member pledges to subject all other interests to the requirements of the Bund, those requirements being concerned with the spread of National Socialism in America and loyalty to Hitler and the German Reich.

Many of the Bund members are American citizens—and that has made it difficult for the government to do anything about them. But finally the department of justice has come to the obvious conclusion that, by remaining loyal to Germany first, those who were naturalized took their oath of allegiance to the United States fraudulently.

As a result of that decision a nation-wide program has been initiated to revoke the naturalization of all former leaders and officials of the German-American Bund whose citizenship was obtained by false representation. They will then become alien enemies and interned for the duration of the war.

When this program has been completed we will all be able to sleep more restfully.

### FRUIT TO SOLDIER CAUSES OFFICIAL HEADACHE IN STATE QUARANTINE PLAN

SACRAMENTO, Oct. 29.—(UP)—The state department of agriculture is finding difficulty in enforcing the plant quarantine because of the practice of sending packages to draftees in training.

Apples and pears are among the prohibited fruits which are being sent from other parts of the country

to the boys in service here, and California boys who are training in the south are sending cotton bolls home. These commodities, carriers of the Oriental fruit moth, the apple maggot and the boll weevil, are an actual menace to California agriculture.

Postal authorities and carrier lines have aided in intercepting the contraband fruits and cotton, which in most cases have been in unmarked parcels.

### REGISTRATION SLIPS ARE NECESSARY TO GET GAS RATIONING CARDS IN STATE

SACRAMENTO, Oct. 29.—(UP)—Motor vehicle registration cards, the white slips, must be presented in order to receive gasoline rationing books, it was announced by James M. Carter, director of the motor vehicle department.

If California motorists have lost or misplaced their registrations, they may apply immediately to the department of motor vehicles for duplicates.

If the duplicate does not arrive in time, of if the registration is being held in Sacramento pending a transfer of license, ration books may be issued upon execution of an affidavit to that effect.

### WOODEN WARNING SIGNS WILL REPLACE STEEL

SACRAMENTO, Oct. 29.—No more steel highway markers will be erected along California roads for the duration. Signs directing and warning the motorist will now be constructed of pressed hardwood.

### 1,291,000 POUNDS OF TURKEY IN STATE'S COLD STORAGE

SACRAMENTO, Oct. 29.—(UP)—Cold storage holdings of turkeys totaled 1,291,000 pounds in California on October 1, according to the federal-state market news service. A total of 8,333,000 pounds of dressed poultry were held in California the same date.

Every motor vehicle accident is the result of somebody doing something the wrong way at the wrong time.

Save your tires and help win the war! The motorist who walks now will not have to goosestep later.

## Tahoe Briefs

An impromptu party was staged in the lobby of Tahoe Inn by its owners, Mr. and Mrs. Carl Bechdolt, Sr., in spite of the fact that the hotel was closed for the winter on October 19. Mrs. Charles Sadler of Reno and Lewis Luckenbach were the honored guests, each celebrating a different occasion. Mrs. Sadler was observing her birthday and Luckenbach was en route to Reno to be married.

The Paul Crandalls have closed their store and luncheon at Tahoe Park and left for Napa where they will spend the winter.

Little Stanley Martin who turned seven on Wednesday, October 23, was tendered a party by his mother to celebrate the occasion.

Duck hunters are still returning with full bags from various sections of Tahoe, many preferring the lake of the backcountry to Tahoe.

Fenton Ball of Tahoe last week returned to his doctor in Reno for treatment. X-rays revealed his neck bone was cracked. Despite his injury, suffered in a recent automobile accident, he enlisted in the Naval Construction battalion and expects to be called within two weeks.

Mr. and Mrs. Henry Worden are visiting in Oakland this week. Bob Harkness who was formerly employed as caretaker at Denale will look after their interests here this winter. The Wordens plan to return at the end of the week.

## LLOYD YEAKEL OF LAKE TAHOE IS VICTIM OF ATTACK

TAHOE CITY, Oct. 29.—The Lake Tahoe region was shocked Friday to learn of the sudden death of one of its most admired citizens, Lloyd Yeakel, 45, who died suddenly at his home in Lake Forest, following a heart attack.

Death came a few minutes after he slipped to the floor at 7 o'clock Friday morning. Mrs. Yeakel summoned to her aid Ray Frazier and Mrs. A. M. Henry, but Yeakel failed to revive and when Dr. Bernard arrived from Truckee he was pronounced dead. He had been in ill health and recently visited a doctor.

The deceased was one of Tahoe's solid citizens, industrious, amiable and well liked and admired by all his friends. He was a good husband and father and leaves besides his wife, Sibyl, an adopted son, Richard of Oakland and Rodney who graduated from the Tahoe high school.

Francis West of Colfax took the body to Oakland for services.

Mrs. Yeakel has closed her home at Lake Forest and gone to Oakland. The sympathy of the entire lake region is extended the family.

You can get a good selection of Christmas cards at the Sierra Sun at prices ranging upward from 50¢ for \$1 with your name printed. —adv

## Miss Beccy Brodehl Is Honored at Shower Given By Friends

TAHOE CITY, Oct. 29.—Friday afternoon a number of friends gave an impromptu shower to Miss Beccy Brodehl, who plans to marry Milton J. Shontz of Woodland November 7. Following the unwrapping a miscellaneous gifts, sandwiches, cake and cookies were served the guests. Those present included Mesdames Northie Pomin, Elsie Bechdolt, Elizabeth Worden, Glenn Sweeney, Marie Henry, Ben Stanley, Bliss Hinkle and Miss Florence Vernon. Sending gifts but unable to attend were Mesdames Ann Anderson, C. W. Vernon, Ruth Mayfield and Eleanor Swanson.

## Tahoe Schools

Tahoe school children this winter will not have to track mud into the classrooms, thanks to the trustees. A new four-foot cement sidewalk this week is being laid from the street to the front entrance of both the high school and the grammar grades classroom. Its surface is being roughened to prevent slipping in icy weather. N. R. Mayfield is the contractor on the job.

Mrs. June Dyer, teacher for some time past in the elementary grades, has regrettably left Tahoe to reside in San Francisco. No former teacher has ever achieved a more popular reputation than Mrs. Dyer, but the reduced attendance has forced the grouping of all primary grades in Mrs. Myrtle Gallinger's room. One factor, which lightened her departure was the sudden return of her seafaring husband who just returned to San Francisco from a three weeks shift with the Merchant Marines.

On exhibit this week is an admirable colored pencil picture of a lovely little dream house, done in bright hues by Pat Harrison of Big Chief Camp. It is on display in the elementary room which, since its use has been ended for the present, will serve as a library and exhibition room.

Mrs. Anne Anderson local librarian last week gave to the school several shelves of National Geographic that will be used by the children for research work.

The trustees of the Tahoe Lake school, Mrs. Northie Pomin, Jay Schumacher, and Henry Worden, were all present on Thursday of last week at the luncheon hour to make an inspection tour of the grounds and building. While there they witnessed the distribution of membership badges and cards to eight children for merits in the School Good Food Patrol. This is a movement being sponsored by schools and approved by the government. It encourages the youngsters to eat healthy, nourishing foods and live clean lives. Those honored were Robert Hursey, Robert and Clifford Dockham, Barbara Stoddard, Blodwyn Tiffie and Stanley Martin, Jr. Arthur Ables also won the award but was transferred to an Oakland school.

Mrs. Myrtle Gallinger this week announces that attendance for the elementary and primary grades has dropped to only eight on Monday with three children absent and two more expected in the near future. That will bring the enrollment up to

## STORK PART AT HENRY HOME IS PLEASANT AFFAIR

TAHOE CITY, Oct. 29.—The A. M. Henry home Tuesday was the scene of a novel story party when neighbors and friends gathered to bring gifts for the anticipated arrival in the A. M. Henry, Jr., family in Sacramento.

Guests passed around their dainty gifts for inspection before they were wrapped and placed in a large carton to be shipped to Sacramento. Then Mrs. Henry served refreshments and drinks and some enjoyed bridge while others visited.

Those attending included Mesdames George Bliss, Stella Watson, Hazel Sweeney, Ben Callender, Ruth Mayfield, Naomi Hursey, Barbara Stoddard, D. M. Brodehl, Ben Stanley, Elizabeth Worden, Weller Atherton, Ida Simmonds, Northie Pomin, Mary Turnage, Stanley Martin, Elsie Bechdolt and children, Christine and Sharon, Marilyn Turnage and Miss Beccy Brodehl. Those sending gifts but unable to attend were Mesdames Cecil Moore, Viola Bosen, Carl Bechdolt, Sr., Eleanor Swanson, Ann Anderson and A. C. Stoddard.

13, the smallest class since 1935. The peak enrollment was reached some three years ago when 103 attended.

Highest recommendation should be paid the local school trustees and especially Mrs. Northie Pomin who has served as clerk for almost more years that she can remember. When the new wing of the school was added four years ago only the best quality furnishings were purchased and today that foresight is being appreciated with high prices and cut budgets. Even after the present emergency the equipment at the Tahoe Lake school will be in excellent condition and ready for the certain increase in enrollment.

## DEMOCRATIC RALLY BEHIND WARREN GROWS

Four Hundred Thousand Bourbon Votes at Primary Will Show Huge General Election Gain

Attorney General's Strength On Increase as Day for Final Decision Of Voters Nears

The phenomenal primary support of regular Democrats—nearly a half-million of them, according to official tabulation—given Earl Warren, the non-partisan candidate for Governor, promises to mount to an even higher figure at the November general election, present trends indicate.

Democrats in every section of the State have joined the Warren march to the war-time governorship of California under the banner, "Leadership—not Politics!"

Warren has pledged full co-operation with President Roosevelt in his win-the-war efforts, and Warren Democrats everywhere point out that the President himself set an example of non-partisan executive leadership in naming many men of the opposite party to positions of responsibility in his administration.

Gordon H. Garland, Democratic leader and Speaker of the State Assembly, in one of the keynotes urging the election of Earl Warren, as also is Henry Meehan, 10 year member of the State Assembly, and former Democratic speaker pro-tem of the Lower House. Meehan says:

"Democrats, in electing Warren, will be naming as Governor a better Democrat than his opponent, because Earl Warren's record in public office is one of steadfast adherence to the fundamental principles of the Democratic form of government on which this country was founded."

## Mrs. Schleuter Gains After Serious Illness In Hospital At Reno

TAHOE CITY, Oct. 29.—Tuesday afternoon Mrs. Theodore Schleuter of Tahoe Park was taken to St. Mary's Hospital in Reno by her husband. She had been ill with the flu and complications for several weeks. She is believed improved although still in a serious condition. Her many Tahoe friends and neighbors wish her a speedy recovery.

## Tahoe Kwikies

The lake level Monday stood at 6227.46 with 176 CSF of water leaving the gates. The coldest morning to date was October 13 when the temperature dropped to 25 degrees.

Victor Wikander of Oakland returned Monday from his hideaway retreat on Buck Island Lake where he frequently vacations in both the winter and summer.

Henry Droste took his departure from Tahoe for the winter Tuesday. He turned over to Stanley Martin of the Sierra Pacific Power Company, the task of sugar rationing.

## First Things Come First War Calls Must Go Through

A cherished tradition among telephone men and women is that "the message must go through."

War messages for the sake and safety of all of us must go through first.

The demands of War are placing a heavy load on our Long Distance lines.

It is impossible to build more switchboards and lines because materials such as copper must be used in making munitions and weapons.

You who use the telephone in these critical times can aid in getting War messages through promptly and in cutting down possible delays on your own essential calls if you will—

Be brief—Plan what you want to say.

Make calls only that you find essential.

Place your calls by number and use station-to-station service.

Answer your telephone promptly.

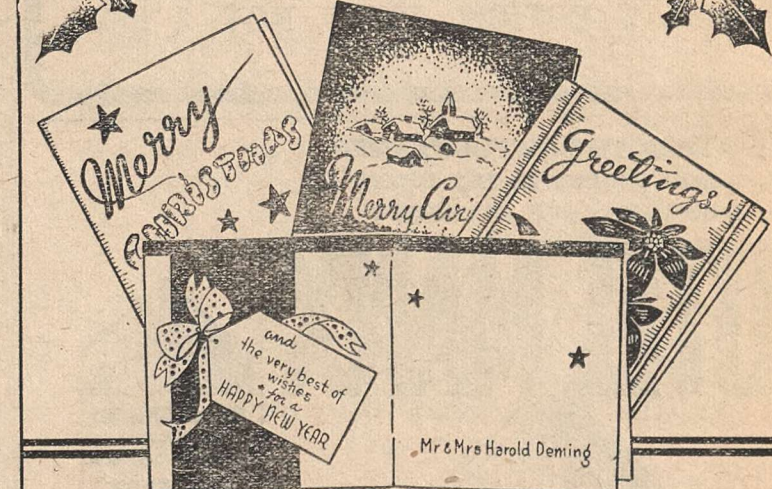

Your cooperation in these simple matters will make possible the maximum use of existing voice highways. Thank you for your help.

IN making a bull's-eye or making a soft drink there are no short cuts to "know-how." Fifty-seven years of knowing how to blend Nature's choicest ingredients explain the different kind of refreshment you get in Coca-Cola.

A finished art in its making creates its original taste not found in anything except Coca-Cola itself. The same skill guarantees the unique quality of this best-liked soft drink on Earth.

Coca-Cola goes beyond merely quenching thirst to leave a delightful after-sense of refreshment. Be sure you get the real thing. So call for ice-cold Coca-Cola by its full name or by its familiar abbreviation—Coke.

Outdoor action calls for a refreshing indoor reaction. It calls for ice-cold Coca-Cola. It's only a little thing, but the big thing it does to please people make it the best-liked soft drink on Earth.

The best  
is always the better buy!

## Tahoe Briefs

Announcement is made this week by Miss Eunice Duffee, chief operator of the Tahoe telephone exchange since the departure of Mrs. Virginia Moore, that Mrs. Jessie Tolleson of Big Chief Camp and her daughter, Mrs. Stirling Ralphs will serve as agents during the winter months for the company. Both are well known in the Tahoe area, having assisted their husbands in the operations of their Truckee river resort for the past several years. Miss Duffee has made tentative arrangements to be in Oakland this winter with her parents.

Prof. George Hinkle of San Francisco State College, spent the week end at his Tahoe home.

Clarence Vernon on November 1 will relinquish his job as chief observer at Tahoe City, turning the duties over to A. M. Anderson of the Village Store. The Vernons will move to the Tavern where they will be employed through the winter as the caretakers and watchmen.

Mr. and Mrs. Henry Wehrman who have served as caretakers at the Tavern for years will leave Novem-

ber 1 for Auburn where they have rented the Harry McArthur cottage for the winter. In the Spring they hope to build near Auburn.

Mrs. Marie Henry announced that the advanced first aid class she had planned would be abandoned for the present as agreeable hours to suit the convenience of all could not be arranged. The five women who gathered at her home Monday night for the first lesson resolved into a social gathering instead of first aid.

Tahoe's iron scrap is still awaiting trucks from Hobart Mills to pick it up. Although arrangements were made by N. R. Mayfield for the removal last week no word has been received from the collectors. No estimate can be placed on Tahoe's tonnage until it has been accumulated into one large pile.

Harry Rose is still enjoying his favorite sport of fishing and with excellent results. Sunday he and Fred Main hiked to the Tallant Lakes and both brought home their limits of Lochleven.

Joe Henry spent Monday in Reno where he underwent the doubtful pleasure of having his teeth made ship-shape before his dentist leaves for the armed service.

## TAHOE LETTER

### To the Service Men From SWANEE

TAHOE CITIZEN,  
OCT. 29, 1942

Dear Tahoeites:

Another seven days have rolled into oblivion . . . but they brought poignant grief to at least one grand Tahoe family. They are the Charles Kendricks, neighbors who spend their summer vacations at their attractive lakeside Tahoe Park home, only half a mile from where I live.

A short time ago Major John L. Smith came to San Francisco from the Guadalcanal region to disclose to Major and Mrs. Kendrick and family at their Pierce street home that the Grumman Wildcat piloted by their 25 year old son, Lieutenant Charles Kendrick, had been shot down in action by Jay zero fighters while flying with his squadron over the Solomons airport which they were guarding from attack.

Only three short days previous to his death, Lieutenant Kendrick had been decorated with the Distinguished Flying Cross by Admiral Chester W. Nimitz for heroism termed by the admiral "an inspiration to all American forces."

In mid August Charles went into combat service in the Solomons, where on the first day of the great battle for Guadalcanal he was shot down but returned for active duty despite minor wounds. The Japs can thank Lieut. Kendrick for the loss of four zeros and one multimotored bomber, his offerings at the altars of Democracy. Reverently we salute you . . . Lieutenant Charles Kendrick!

The Tahoe region for the past week enjoyed marvelous sunny days with mornings and evening cool and crisp. On calm afternoons the lake's unruffled surface gleams with the scintillating tints of yellow and red and gold, reflecting like a giant looking glass the exquisite Autumn dress of the brilliant Lombardy poplars, alders and willow which dot the shoreline. Each little breeze that blows sends a flurry of yellow leaves dancing across the highways and into the browning meadows which soon will sleep under Tahoe's snows. And all around us a stricken world is praying for spring to come and with it a new and lasting peace for the humans of all races and creeds. And we at home know that the American determination and Yankee courage you boys in the armed forces will make that dream come true.

We stay-at-homers are following with intense interest the progress being made on the allied fronts and trust sincerely that you all may have an opportunity to do your bit in freeing the world from dictatorship. You'll return better, wiser . . . and sadder men . . . but you'll be glad to have had a part in the greatest battle for liberty the world has ever known.

Wishing you all good luck, good health and good cheer, I am,

Faithfully Yours,  
SWANEE.

The problem of rubber conservation will be solved when drivers spend a little less time watching the rear view mirror for approaching cops and a little more watching the speedometer.

Mrs. Eleanor Swanson spent four days in Reno last week undergoing medical treatment.

## Top-Ranking Marines Cook Grief for Japs

Five high-ranking marine officers are shown at a staff meeting on board an un-named transport, cooking up more grief for Nippon in the Southwest Pacific. Shortly after this meeting, Maj. Gen. Vandergrift (shown) was congratulated by his superior officers for the "remarkable performance of his fighters in destroying 33 enemy aircraft in attacks by the Japanese on Guadalcanal (in the Solomons) on September 27 and 28 without the loss of a single United States fighter." The officers shown are, left to right, Maj. Gen. Alexander A. Vandergrift, Lieut. Col. Gerald C. Thomas, Lieut. Col. Randolph McPate, Col. Frank Goettge, and Col. William C. James. Colonel Goettge is "missing in action."

"Sure, Acme Beer will keep after you open the Victory Quart bottle. Just pour slowly, recap promptly and put it back in the refrigerator. It's the economical way of buying Acme, too."

## SUCCESSFUL PARENTHOOD

By MRS. CATHERINE CONRAD EDWARDS  
Associate Editor, Parents' Magazine

### FIRST AID TRAINING IMPORTANT

Having had as yet no large-scale war emergencies to meet some are beginning to question the importance of First Aid courses and other steps to nursing made available since the war began. Why anyone should doubt the value of having learned something useful, even though you may not have been called on to apply your knowledge, is difficult to see. Certainly mothers need have no such feeling of wasted effort for even if the bombs are kept away from our homes the shortage of doctors and nurses will mean that every mother who has equipped herself to look after the minor ailments of her own family is making a direct contribution to winning the war.

Perhaps no generation of parents has depended on professional services in supervising their children's health so much as the mothers and fathers of today. This has been an enlightened policy and the superior health of today's young people proves its soundness. But it should never have resulted in a mother's loss of ability to nurse a child at home or to keep the doctor's visits to a minimum. Now with doctors' and nurses' time at a premium your responsibility as a home nurse cannot be shifted except in cases of serious illness, so if you haven't already done so, take advantage of the many opportunities being offered to take a First Aid or Red Cross home nursing course. If you haven't anyone to leave the child-

dren with during the day sign up for an evening course when Father can be on duty at home.

One of the greatest benefits of a Red Cross course is getting rid of one's half-baked ideas about what to do in an emergency or how to make a preliminary diagnosis of illness. For if we knew nothing we'd be better off than knowing the wrong things, many of which we half remember from childhood.

Another thing, your course will make you more safety conscious, so that you'll spot the pitfalls in your own home, which might otherwise have been the scene of one of the nation's three million yearly accidents.

There may be epidemics before the war is over since wholesale disease has always been an accompaniment of war. The woman who is trained to nurse her own family or lend a helping hand to a sick neighbor will prove her value as surely as those who have replaced men in factories making war materials or entered the military service directly.

The ambition of the Red Cross is to have 25 per cent of the adult population trained so that they will know what to do when human life is endangered. To achieve this one-out-of-four status, if it is at all possible either father or mother of families with children should be among those qualified to act effectively in an emergency.

## Capitol Week

By T. M. BRIGHT  
United Press Staff Correspondent  
SACRAMENTO, Oct. 29.—(UP)—

A superior court jury has upheld the new California law requiring members of subversive groups to register with the secretary of state, a case which may have national repercussions.

Nine members of the Friends of Progress were convicted in Sacramento for failure to register under the new law. The case took nearly three months to finish and many witnesses were prominent persons, chiefly to discount the practices of the pre-war isolationist group.

The trial was not without its excitement, since Robert Noble, pension movement leader and asserted head of the FOP, and Ellis O. Jones, the founder of the "National Copperheads" were the two main defendants. They were convicted in a Los Angeles federal court of sedition before the Sacramento trial started.

The legislature wasn't fooling when it put teeth into the new law. Other prosecutions may follow. The law not only requires registration of groups advocating the violent overthrow of the government but registration of membership lists as well. Violations of the act are felonies and punishable by prison terms up to five years and fines not exceeding \$5,000.

Dr. Olive P. Walton, for 21 years superintendent of the Ventura school for girls and widely known in her profession, is going to retire at the end of this year. Her place will be filled by Mrs. Nan Allen of Fresno, director of child welfare and curriculum in the Fresno City school system and a former psychologist in state institutions. A good many young women have had the advantage of

Dr. Walton's advice and help through the years and her school has been a model of excellence.

Another veteran who plans to retire soon is Dr. Charles Pinkham, secretary of the state medical board for the past 30 years. He was re-elected for another term when the board held a three day meeting in Sacramento but indicated he would retire next February, when he reaches the mandatory age limit for leaving state service. Dr. Percy Dolman of San Francisco was named president, succeeding Dr. Fred De Lappe of Modesto. The new vice president of the board is Dr. George Thomas of Los Angeles.

Director of Agriculture W. J. Cecil issued a warning to milk distributors against diverting manufacturing cream and milk to the retail and wholesale trade. He said manufacturing cream and milk is below the standard set for fluid milk. The state faces a growing danger of a milk shortage and state officials are making every effort to conserve the existing supplies.

The loss of close to 150 officers of the California Highway patrol has Chief E. Raymond Cato worried in the face of growing problems of wartime traffic. Cato said most draft boards have refused to grant deferments to veteran officers. Another headache is the loss of the patrol's training school at the state fair grounds, now occupied by military installations, and the inability to find a new training location.

And even if he had a school, Cato said, candidates are scarce.

Odds and ends of the week: The state employment commission will meet next week in San Francisco to decide whether jobless benefits should go to enlistees in U. S.

## ABOVE the HULLABALOO

By LYTLE HULL  
Justified Homicide

Why didn't the man who invented war provide for the disposal, by torture or otherwise, of that particular variety of shopkeeper, or store clerk, which informs the customer that "there's a war going on" whenever he gets short of merchandise—or of his temper? What cruel fate decreed that suffering humanity should be compelled to bear the burden of a thousand wars plus the existence of this fishy-eyed "consequence" of military strife—this "eruption" from the volcano of social unrest, which advises the shopper of the current political status of the world every time he himself happens to run out of canned beans.

We haven't legalized murder as yet in this country. That pastime is still solely an international privilege. But among the scientific giants of this modern age there must be one genius who could invent a spray, or some other insecticidal implement which would relieve mankind of this fungus on the "body politic."

There are two varieties of this pernicious rash: Type No. One—which merely states that "there is a war going on"; and the even more noxious Type No. Two, which creates a superfluity of adrenaline in your system by asking you if you are aware of this fact. These bacilli-pestae are definitely retarding the war effort by causing mental and physical anguish in those whom they advise, or question, on the war situation.

Now the only way to effectually arrest the present trend toward inflation is to keep people away from the shops. So why not pass legislation compelling every store in the nation to have at least one of these "there's a war going on" clerks behind the counter. The death rate would undoubtedly be high, but the ranks could be refilled from the

simian collections in the various municipal menageries.

The results of this wise legislation are easily predictable. The American shopper is now buying everything in sight with the "easy money" which he should be investing in war bonds or tucking away in the savings bank against the hard times which always follow war. A few "run ins" with Types One and Two, and we would soon be avoiding the entire shopping district in order to preserve our mental equilibrium or to stay our hand from murder.

The probability is that this invaluable suggestion will not be enacted into law, because congress is too busy thinking up new taxes, and the president doesn't have to do his own shopping. So the corrective becomes the obligation of the tortured people.

Philosophers and scientists have come to the conclusion that ridicule is the surest antidote for this baneful malady. They suggest some of the following crushing rejoinders to the "statement" of Type One: "So what?" or "I can scarcely believe my ears," or just plain "No?!!!" Type Two might be temporarily squelched by "Yes—is that the reason they had to employ you?" or "I have known that for a long time—did you just hear it?" or simply "So I hear."

Fellow sufferers—let us arise in vociferous revolt against these destroyers of the proverbial American "Gentle Disposition." Let each one of us help to win the war by crushing these termites with our most scintillating sarcasm. Let us rid war forever of this smirch upon its otherwise glorious name, so that in the future nations may fight happily on in the knowledge that those "behind the lines" don't have to learn about the war from those "behind the counter."

Civilian pilot training projects.

The average county received 57 cents back from the state in return for each dollar collected in state revenue.

Reduced automobile speeds are lowering the traffic death and injury rate. Wartime motoring is decreasing, too.

The department of institutions was instrument in having draft boards ordered to stop drafting parolees from mental hospitals.

Close to 100 boys from the Preston School of Industry have gone into the tomato and prune harvests, receiving wages for their work.

### CONSTRUCTION WORKERS ARE NEEDED BY NAVY IN MAKING STEPS TO TOKIO.

Lieutenant W. E. Kimbrough, Officer in charge of the San Francisco Navy recruiting station, this week received an urgent dispatch from the Navy Department in Washington, assigning unlimited enlistment quotas in the Navy Construction Corps to the western recruiting division.

Lieutenant Kimbrough said the order opens all the various petty officer ratings to new recruits.

"This announcement is being made to all construction workers," it was declared, "to meet the urgent demand for qualified tradesmen needed at naval bases outside the continental limits of the United States. The ever expanding United States fleet must rush work on vital bases from which to operate in its all-important path toward Tokio and Berlin."

The ratings are open to men up to 50 year of age who are experienced in practically any line of construction work.

The base pay is from \$54 to \$126 a month plus 20 per cent for foreign duty and allowance for dependents. The Navy provides housing, food, clothing transportation and medical and dental care.

## PRODUCTION FOR VICTORY!

Remember, these un-American  
weapons are used for ONLY  
ONE PURPOSE—to blockade  
the production and delivery of  
goods. Therefore we MUST  
abolish them in wartime, to put a

UNITED CALIFORNIA  
behind the  
UNITED NATIONS!

To put this law into effect, it is  
necessary to

Vote "YES"

## Church Notes

Community Church  
Mrs. Hazel Brandlin in Charge

Sunday School will commence at  
10 o'clock with Miss Betty Pearson  
our new superintendent. Come and  
bring your boys and girls. There will  
be a class for you.

Morning worship at 11. Sermon  
topic "Shall We Look for Blackouts?"  
Bring a friend with you. Being a  
community church all faiths should  
be represented and we are sure all  
will feel at home.

Women's Society for Christian ser-  
vice will meet on Thursday from  
now until Thanksgiving for import-  
ant work.

NOTICE

After November 1 I will not be  
responsible for any watches or other  
items left with me for repair. Own-  
ers may claim there property by  
calling at the office of the Sierra  
Sun.
